

In Clinic Procedures

Dr. Wilcox provides a wide variety of hands on therapies that focus on being as noninvasive and effective as possible. These include:

- Acupuncture

- Acupressure

- Bodywork Therapy

- Spine and Joint Optimization

- Organ Massage

- Prolotherapy (Regenerative Injection Therapy)

- Trigger Point Injection Therapy

- Neurotherapy

- Mesotherapy

Dr. Wilcox and his staff also provide a full spectrum of intravenous therapies. These include:

- Intravenous Vitamin C Therapy
- Myer's Cocktail
- Chelation Therapy
- Ozone Therapy
- Ultraviolet Blood Irradiation (UVBI)
- Hydrogen Peroxide Therapy
- Phosphatidylcholine IV Therapy
- Bio-oxidative Medicine
- Major Autohemotherapy
- Nutritional IV Therapy

The time necessary to safely and effectively complete the above therapies will vary depending on the procedure and the patient. Some people are more sensitive and so treatment or IV therapy may take longer. Please contact the clinic to schedule an appointment and let us know that you may need more time than the average person so we can customize your care and schedule an appointment that is appropriate for you.
